Chow Kok Fong Construction Arbitration

With a Foreword by
Justice Dato' Mary Lim, *Judge of the Federal Court of Malaysia*

In the construction industry, arbitration is the major means of dispute resolution, particularly for large, complex projects. This new book addresses the process from the perspectives of both the parties involved and that of their advisers. It discusses ways to improve results of the process and the management of costs and time and a purposive approach to manage a construction arbitration.

*The construction industry on both sides of the Causeway and beyond are so much enriched by all his works, especially this latest masterpiece... **Justice Dato' Mary Lim**, Federal Court of Malaysia*

*...another tour-de-force... an enormous assistance to those who want to know how construction arbitrations really work... **Cyril Chern**, Author of "Chern on Dispute Boards"*

*"...Chow Kok Fong has produced another excellent publication that further cements his status as an undisputed doyen of Singapore construction law." **Giam Chin Toon SC**, Chairman Wee Swee Teow LLP and former Ambassador of Singapore to Peru*

Available Sept 2023

Construction Arbitration

Contents

Among the 16 chapters are chapters discussing –

- Commencement Matters (Chapter 3) – development of the case theory and selection of the arbitrator.
- Conduct of Proceedings (Chapter 4) – management of procedural matters and documents.
- Management of Costs in Arbitration (Chapter 5) – managing costs and cost savings considerations.
- Documents and Evidence (Chapter 6) – gathering and organisation of evidence, requests for production and hearing bundles.
- Statements and Pleadings (Chapter 7) – drafting approaches to cause papers, pleadings and the memorials approach.
- Factual Witnesses (Chapter 8) – selection of witnesses, drafting of witness statements and preparations for examination.
- Expert Evidence (Chapter 9) – selection of experts, instructing the expert, presentation of expert evidence.
- Payments and Variations (Chapter 11); Delays and Extensions of Time (Chapter 12) and Termination (Chapter 13)

Other chapters contain discussions on Arbitration Agreement and Construction Standard Forms (Chapter 2); Written Submissions (Chapter 10); The Award (Chapter 14); Interim Measures (Chapter 15) and Other Modes of Dispute Resolution (Chapter 16)

About the author

CHOW KOK FONG, PBM is a Chartered Arbitrator and a Fellow of the International Academy of Construction Lawyers. He was previously CEO of Changi Airports International and the Construction Industry Development Board and has held other senior appointments with major construction and real estate companies. He founded the Society of Project Managers and was past Chairman of the Society of Construction Law. Among his 21 books are *Law and Practice of Construction Contracts* (5 editions); *Security of Payments and Construction Adjudication* (3 editions) and the volume on building and construction law of *Halsbury's Laws of Singapore*. He chaired the Ministry of Law working group drafting the *Singapore Infrastructure Dispute Protocol* which was published in 2018. He was awarded the Singapore Academy of Law Merit Award 2013 for contributions in promoting and advancing the development of Singapore law.
